

## QUALITY POLICY

We, at **COD Research**, harness our scientific expertise in clinical development solutions for delivering evidence based research.

COD Research is committed to provide high-quality clinical research services that consistently meet continual improvement, meeting requirements of applicable GxPs, internal requirements, customer requirements & expectation and other national / international standards, regulations.

We leverage technology, therapeutic knowledge; regional expertise and experience to provide quality solutions that meet or exceed the client's expectations in the dedicated timelines. Our services comply with applicable national & international guidelines maintaining confidentiality & integrity.

Our commitment to the client is based on total understanding of their requirements. In pursuit of global standards, we believe in continuous up gradation of processes, which are finely tuned to ensure consistent quality and are flexible to adapt to project requirements.

Quality practices are communicated within the organization, understood, and adhered to by all employees.

We strive to keep the dedicated team members updated with the processes as well as the professional knowledge and required competencies.
